

# RS-42X134-UG-EXT

3200 lb. WLL

UNIVERSAL OVERHEAD LOAD-RATED RIGGING GRID

RIGGING SYSTEM

Universal Grid Extension with Line Array

## RS-42X134-UG-EXT Heavy Duty Universal Grid

Attach this optional one piece outdoor rated welded extension frame to the RS-42X134-UG Universal Grid to provide a safe suspension platform for medium to large sub arrays. It comes equipped with a structural splice kit that permanently joins the extension frame to the main grid. Only simple hand tools are required.

Once attached, the assembled Grid and Extension frames are suspended under the venue's super structure from strategically placed rigging points. The sub array is then rigged under the extension from its own Top Grid leaving plenty of room for the main line array cluster to be raked back toward the subs.

This extension frame is constructed of tough tubular steel alloy and treated to a rich lasting black powder coat finish.

### STANDARD FEATURES:

- ▶ Permanently supports medium and large sub arrays
- ▶ Secures to Universal Grid
- ▶ Rugged black powder coat finish
- ▶ Outdoor Rated
- ▶ Adjustable Suspension Points

### OPTIONAL ACCESSORIES:

- ▶ See overhead hardware data sheet
- ▶ See wire rope data sheet
- ▶ See safety cable data sheet

### SPECIFICATIONS:

**Materials:** Structural steel
