

# FP-DX12-2X1

(400 lb. WLL)

## CLUSTER PACK PLANAR ARRAY KIT

**FASPAC™**

Clustering and flying Fulcrum DX12 series loudspeakers is easy, safe and very predictable. This planar array suspension kit joins two DX12 cabinets together to be flown as one, tight-packed for near field placement or splayed out for further distances from the audience.

Two plates come in the kit, one top and one bottom, with load rated eyebolts that provide the actual suspension. They pass through the plate and into the cabinet's threaded attach points.
