

AJ-2336-BT

(85 lb. WLL)

ADJUSTABLE WIDTH U-BRACKET WALLS & CEILING MOUNT

UB-SERIES

Wall Mounted

Adjustable Loudspeaker Mounting Kits support most of the mountable loudspeakers in the 85 lbs./38 kg. range, or less and its open side arm slots allow a single installer to easily mount loudspeakers in this weight range. Loudspeakers can be rotated within the arms to acquire the desired tilt angle. Separate side holes permit the angle of the speaker to be locked permanently using lag bolts. Since there are only two sizes, inventory requirements are minimal.

Fully captive arm holes permit safe, secure mounting of loudspeakers under balconies, overhangs and from ceilings. The brackets' base gives installers multiple options for placing speakers over irregular and unpredictable mounting surfaces because of its unique mounting slot pattern.

Ceiling Mounted

STANDARD FEATURES:

- ▶ Packed in pairs
- ▶ Two models support most loudspeakers, weighs 85 lbs/38 kg. or less
- ▶ 16" and 24" hole centers match wall studs
- ▶ Open arm slots for one man installation
