

# FP-AM4212-3X1

(400 lb. WLL)

## JBL CLUSTER PACK PLANAR ARRAY KIT

FASPAC™

Clustering and flying AM4212, AM5212, AM6212 & AM7212 series loudspeakers is easy, safe and very predictable. This planar array suspension kit joins three cabinets together to be flown as one, tightpacked for near field placement or splayed out for further distances from the audience.

Four front joiner plates and two rear joiner plates come in the kit. Load rated eyebolts provide the actual suspension by passing through the front plates and anchoring into the cabinet's threaded attach points. High strength bolts are provided to secure the joiner plates.

### STANDARD FEATURES:

- ▶ Clustering and flying three AM4212, AM5212, AM6212 & AM7212 series loudspeakers together
